Florida Sidewalk Solutions
925 SW 42 Terrace
Plantation, FL 33317

To Whom It May Concern:

The City of Naples has been contracting with Florida Sidewalk Solutions since July 2005 for the removal of sidewalk trip hazards.

The method of repair that Florida Sidewalk Solutions provides has proven to be very cost effective compared to previous methods of repair such as grinding and "removal & replacement." The locations that have been repaired have been expedited in a quick and clean manner, enabling Naples' residents and storefront owners to continue everyday activities with limited disruptions.

During this time, Steve Sdankus and Dina Callari-Sdankus have been very proactive in demonstrating excellent communication skills when processing invoices and making repairs within the field.

Due to the quality of work and professionalism that has been exhibited during the past several years, I highly recommend Florida Sidewalk Solution's services for removing sidewalk trip hazards.

Sincerely,

Ben Copeland
Budgets & C.I.P. Manager
