

RICHARD GRAHAM
PUBLIC SERVICES DIRECTOR

SALT LAKE CITY CORPORATION
DEPARTMENT OF PUBLIC SERVICES

ROSS C. "ROCKY" ANDERSON
MAYOR

February 9, 2006

To Whom It May Concern:

In 2005 Salt Lake City Engineering contracted with Precision Concrete Cutting to accomplish a \$160,000.00 horizontal sawcutting project. The project consisted of removing ¼" to 1 ¼" high trip hazards from the City's concrete sidewalks by horizontal sawcutting. Precision Concrete Cutting provided the City with a quality project in a timely manner. We found them to be amicable to work with and professional in their work habits. We would have no reservations in awarding them future horizontal sawcutting contracts.

Thank you for your interest.

Sincerely,

Max G. Peterson, P.E.
City Engineer
