17 Sept, 2007

Georgia Safe Sidewalks;

I want to thank you convey my complete satisfaction of the recent work performed by your company for the City of St.Marys. Your removal of trip hazards in our Downtown Historic District was done on schedule and within budget while simultaneously being performed with the utmost professionalism. This unique service saved us a considerable amount of money when compared to replacing the same sidewalks. We have also received several positive coments from our citizens on what a good job it was. Keep up the great work. We look forward to doing busness with you in the future.

Chad W. Kinzly  
Asst. Director  
Public Works Dept.
